

ADOBE® PRESENTER RAPIDLY CREATE HIGH-QUALITY ON-DEMAND PRESENTATIONS WITHOUT SPECIAL TRAINING

Adobe Presenter is a rich media and eLearning authoring tool that enables anyone to create compelling on-demand presentations from within Microsoft PowerPoint.

Rapidly create compelling presentations

Adobe® Presenter software enables business professionals to leverage their PowerPoint skills to develop professional-quality presentations and eLearning content. Easily add voice-overs using your computer and a microphone, and utilize the intuitive Audio Editing tool to cut out awkward pauses or mistakes or to add an audio track. Integrate “talking head” Adobe Flash® Video files or repurpose recorded seminars and lectures to create high-impact on-demand versions of live events. Or add animations and simulations for engaging self-paced training.

Add formal assessments

Address the needs of multiple audience types in a single presentation. Easily create formal assessments and knowledge retention exercises, specify pass/fail grades, and use question branching to tailor learning paths or solicit feedback. Add surveys to gauge a viewer’s interest in a product or topic, or to determine the overall effectiveness of a presentation on a viewer-by-viewer and slide-by-slide basis. And track results with easy-to-use dashboard reports.

Leverage industry standards

Leverage content already developed in Flash or Macromedia® Authorware® from Adobe. Create high-fidelity renditions of finished presentations for easy online distribution by converting finished presentations to the ubiquitous Flash file format at the click of a button. Repurpose Adobe Presenter content within Adobe Acrobat® Connect™ Professional online meetings—as static click-through or self-running rich media presentations. Deliver and track Adobe Presenter presentations through common corporate learning management systems—content created with Adobe Presenter is SCORM and AICC compliant.

Customize viewing experiences

Extend the reach of your brand by adding corporate logos and color schemes to presentation slides. Save custom settings as templates or themes for future use to help ensure consistency across virtually all presentations.

System requirements

Windows®

- Microsoft® Windows 98 SE, Windows 2000, or Windows XP
- 600MHz Intel® Pentium® III processor or equivalent*
- 128MB of RAM (256MB recommended)*
- 100MB of available hard-disk space*
- Microsoft PowerPoint 2000, 2002, or 2003*
- Microsoft Internet Explorer 5.0, 5.5, or 6.0
- Netscape Navigator 7.1
- Mozilla Firefox 1.0.3

Macintosh

- Mac OS X v.10.2, 10.3, or 10.4
- Safari 1.1, 1.2, or 2.0
- Mozilla Firefox 1.0.3

* Content authors only

Features and benefits

Rich presentation viewing experience

Engage viewers with compelling, self-running rich media presentations for maximum transfer of knowledge in minimum time.

Speedy content authoring

Rapidly create compelling presentations in PowerPoint, complete with voice-overs and audio tracks, or let Adobe Presenter wizards step you through the process.

Audio narration and editing

Add narration to presentations using a PC and a microphone, and use the intuitive Audio Editing tool to cut out awkward pauses or mistakes or add an external audio track.

Talking head video

Add Flash Video or reuse recorded seminars and lectures to create high-impact on-demand versions of live, in-person events.

Quiz authoring

Easily create formal assessments, knowledge retention exercises, or surveys; specify pass/fail grades; and use question branching to tailor learning paths.

Easy content sharing

Boost productivity by sharing assets with other content creators in your organization—Adobe Presenter automatically saves presentations complete with assets to a fully searchable content library.

Branding

Add corporate logos and color schemes to presentations and save custom settings as a theme for future use.

Presentation attachments

Add context to your presentation content by adding attachments of virtually any file type or web links to external sites.

Presentation reports

Get detailed reports to analyze viewer responses to surveys and quizzes so you can easily measure the effectiveness of your content. Or identify weak spots in your message and update presentations as needed.

Presentation templates

Jump-start presentations with out-of-the-box templates and save custom presentation templates for future use to maintain consistency.

File size control

Select image and audio quality settings to balance conversion fidelity with a great viewing experience.

Accessible, standards-compliant content

Create SCORM- and AICC-compliant content to deliver and track content through existing corporate learning management systems. Adobe Presenter content is also Section 508 compliant.
