

INTESOLV is seeking an experienced **Flash ActionScript Developer** to join the application and product development team. The successful candidate will demonstrate experience as a key member of a UI design team participating in the complete product development lifecycle of several successfully launched software applications.

As a member of an experienced team, the successful candidate will work to create rich cross platform HTML functionality using JavaScript, DHTML, CSS, XSL, XSLT, etc. that support IE, Firefox, AOL on PCs and Macs, perform Testing and debugging integration and operation of web interfaces with back end product.

>>BASE TECHNICAL REQUIREMENTS

- 2+ years as a Flash, ActionScript programmer.
- Working experience with Microsoft SQL, MSDE, or Oracle
- Experience with Flex and MXML preferred.
- Strong skills in object oriented programming.
- Significant experience working with server side technologies (interfacing with web services and XML/XSLT over HTTP) required
- HTML/XHTML/WAP
- CSS & DHTML
- Java, JavaScript
- W3C DOM methods and properties
- PHP/SQL
- Excellent written and oral communication skills
- Team work oriented

A definite plus:

- Macromedia Director, Lingo, Director Xtras
- Adobe Photoshop, Illustrator, Aftereffects
- A working knowledge of .NET, VB6, and ASP[X] development exp very helpful.

>>OPERATIONAL

The ActionScript Developer will be responsible for assisting the development team with new and existing Flex and Flash related development initiatives. This candidate will work in conjunction with application and product development team to understand functionality, scalability, performance, security, and integration requirements from the Front-End/UI & database perspective; and translate these requirements into a rich & intuitive front-end that creates a positive user experience.
